Ardagh NS

A Welcoming and Supportive Learning Environment

About Us

Recently amalgamated, Ardagh NS is proud to serve not only our local community but also families from the wider area. Our class sizes are ideal—large enough for children to learn and play alongside peers of a similar age, yet small enough to maintain a pupil-teacher ratio that ensures individual attention and a supportive learning environment.

We understand that choosing the right school for your child is both a difficult and important decision. Thank you for taking the time to read this flyer—we hope you will consider Ardagh NS for your little one's education.

We are committed to delivering a broad range of differentiated learning experiences that embrace modern learning methods.

Our dedicated and professional staff are committed to delivering engaging and effective learning opportunities for all.

School is about more than just classroom learning, and at Ardagh NS, we grow together through play and teamwork. This not only helps us represent ourselves and our community with pride but, more importantly, teaches us to embrace challenges and rise to meet them.

Our subsidised Morning Club and Aftercare Service allow families the flexibility to drop and collect their young scholars with a schedule that fits busy households.

Contact Us Today for more information or to organise a visit/ tour.
