

08/02/21

Watching the video with an adult might help with what is needed for younger children. Take pictures of what you make and send them to your teacher. Enjoy!

Junior Classrooms & Senior classrooms (Videos from the Joseph and Anni Albers Foundation. Google Joseph and Anni Albers and see what kind of artists they were).

<https://albersfoundation.org/resources/educators/#slide1>

Drawing with salt on black paper. This will also work on brown card, or any coloured card. Setting it up in a baking tray will help to contain any mess. A funnel (or making a cone with the paper at the end) will help with pouring the salt back into the container for re-use. Make sure you have no small cuts on your hand or the salt may sting. Use the tools rather than fingers if you have any cuts.

You can also use drawing with this one if you like.....

DRAWING OF THE DAY

A Knot drawing by Anni Albers made in 1942. Can you draw some different knots?
